

## **CIO Review selects Princeton Power Systems for 20 Most Promising Energy Tech Solution Providers**

Annual list showcases the 20 Most Promising Energy Tech Solution Providers; Princeton Power Systems makes it to CIO Review's top Energy Tech Solution Providers list for its expertise in offering a comprehensive and secure, workflow responsive cloud computing and implementation platform to connect across the pre-acute, acute and post-acute settings.

**FREMONT, CA – December, 01 2014** – CIO Review ([www.cioreview.com](http://www.cioreview.com)) has chosen Princeton Power Systems ([www.princetonpower.com](http://www.princetonpower.com)) for its 20 Most Promising Energy Tech Solution Providers. The positioning is based on evaluation of Princeton Power Systems' success in building integrated systems and designs, commissioning and operating microgrids for leading organizations, including Fortune 500 automakers and industrials, and non-profit organizations. The annual list of companies is selected by a panel of experts and members of CIO Review's editorial board to recognize and promote technology entrepreneurship. "Princeton Power Systems has been on our radar for some time for stirring a revolution in the Energy Tech space, and we are happy to showcase them this year due to their continuing excellence in delivering top-notch technology-driven solutions," said Harvi Sachar, Publisher and Founder, CIO Review. "Princeton Power Systems' solutions continued to break new ground within the past year benefiting its customers around the globe, and we're excited to have them featured on our top companies list."

"Princeton Power Systems is honored to be recognized by CIO Review's panel of experts and thought leaders," said Darren Hammell, Co-founder and CSO, Princeton Power Systems.

### **About Princeton Power Systems**

Princeton Power Systems is an organization that provides design and manufacturing technology solutions for energy management, microgrid operations, and electric vehicle charging.
